1. NATURE OF OPERATIONS AND GOING CONCERN

San Marco Resources Inc. (“the Company”) was incorporated on September 27, 2005 under the *Business Corporations Act* of British Columbia. The Company’s mailing address is Suite 302 – 8047 199 Street, Langley, BC, V2Y 0E2. The registered and records office address is Suite 704 – 595 Howe Street, Vancouver, BC, V6C 2T5.

The Company is engaged in the acquisition, exploration and development of precious metal properties in Mexico and Canada.

The Company is in the process of exploring its mineral properties and has not yet determined whether these properties contain resources that are economically recoverable. The realization of amounts shown for mineral properties and related deferred costs is dependent upon the discovery and exploitation of economically recoverable resources, the ability of the Company to obtain necessary financing to complete development, and attaining future profitable production or proceeds from the disposition of such properties.

These consolidated financial statements have been prepared by management on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. At February 28, 2015, the Company had not yet achieved profitable operations and has an accumulated deficit of \$10,021,120 since its inception. The continuing operations of the Company are dependent upon its ability to continue to raise adequate financing and to commence profitable operations in the future and repay its liabilities arising from normal business operations as they become due. These uncertainties may cast significant doubt on the entity’s ability to continue as a going concern. These consolidated financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

2. BASIS OF PRESENTATION

The interim condensed consolidated financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The interim condensed consolidated financial statements should be read in conjunction with the annual financial statements for the year ended November 30, 2014, which have been prepared in accordance with IFRS as issued by IASB. The accounting policies adopted are consistent with those of the previous financial year, except for impact of recent accounting pronouncements as described in note 3 below. The Board of Directors approved the interim condensed consolidated financial statements on April 24, 2015.

3. RECENT ACCOUNTING PRONOUNCEMENTS

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the IASB or International Financial Reporting Interpretations Committee (“IFRIC”).

The following items have been issued and are effective for annual periods beginning on or after January 1, 2014:

- IAS 32 Financial Instruments: Presentation updates the application guidance to clarify some of the requirements for offsetting financial assets and financial liabilities on the statement of financial position. This is effective for annual periods beginning on or after January 1, 2014. The Standard did not have an impact on the financial statements of the Company.
- Effective December 1, 2014, the Company adopted IFRIC 21 ‘Levies’. This interpretation of IAS 37, ‘Provisions, Contingent Liabilities and Contingent Assets’, applies to the accounting for levies imposed by governments. IAS 37 sets out criteria for the recognition of a liability, one of which is the requirement for the entity to have a present obligation as a result of a past event (“obligating event”). IFRIC 21 clarifies that the obligating event that gives rise to a liability to pay a levy is the activity described in the relevant legislation that triggers the payment of the levy. This interpretation had no impact on the financial statements of the Company.

4. MARKETABLE SECURITIES

The Company holds 17,500 common shares of Rise Resources Inc. which merged with its parent Patriot Minefinders Inc. on January 13, 2015 and also completed an 80:1 share consolidation. These shares were originally valued at \$360,272 and obtained pursuant to an option agreement on the Company’s La Buena property.

On December 22, 2014, pursuant to a special shareholders' resolution, the Company consolidated its shares on the basis of one new share for every five old shares. As a result of the share consolidation, the number of shares, options and warrants, the exercise price and weighted average exercise price, and the calculation of basic and diluted earnings per share for the year ended November 30, 2014 and the three months ended February 28, 2015 have been adjusted based on the new number of shares.

On January 28, 2015, the Company completed a non-brokered private placement of 12,967,500 units at \$0.05 per unit for gross proceeds of \$648,375. The warrants have an accelerated provision such that the expiry date can be reduced to 20 trading days after notice thereof if, after May 28, 2015, the closing price of the Company's common shares for 15 consecutive trading days equals or exceeds \$0.20 in the first year, \$0.25 in the second year or \$0.30 in the third year. The warrants expire on April 24, 2017 and have an acceleration provision such that the expiry date can be reduced to 30 calendar days after notice thereof if the closing price of the Company's common shares equals or exceeds \$1.00 for 15 consecutive trading days after the expiry of the four-month restricted resale period.
