1. NATURE OF OPERATIONS AND GOING CONCERN

San Marco Resources Inc. (“the Company”) was incorporated on September 27, 2005 under the *Business Corporations Act* of British Columbia. The Company’s mailing address is 11th Floor – 1050 West Pender Street, Vancouver, BC, V6E 3S7. The registered and records office address is Suite 704 – 595 Howe Street, Vancouver, BC, V6C 2T5.

The Company is engaged in the acquisition, exploration and development of precious metal properties in Mexico and Canada.

The Company is in the process of exploring its mineral properties and has not yet determined whether these properties contain resources that are economically recoverable. The realization of amounts shown for mineral properties and related deferred costs is dependent upon the discovery and exploitation of economically recoverable resources, the ability of the Company to obtain necessary financing to complete development, and attaining future profitable production or proceeds from the disposition of such properties.

These consolidated financial statements have been prepared by management on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. At August 31, 2017, the Company had not yet achieved profitable operations and has an accumulated deficit of \$12,981,315 since its inception. A number of alternatives including, but not limited to selling an interest in one or more of its properties or completing a financing, are being evaluated with the objective of funding ongoing activities and obtaining additional working capital. The continuing operations of the Company are dependent upon its ability to continue to raise adequate financing and to commence profitable operations in the future and repay its liabilities arising from normal business operations as they become due. These material uncertainties may cast significant doubt on the entity’s ability to continue as a going concern. These consolidated financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

2. BASIS OF PRESENTATION

The interim condensed consolidated financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The interim condensed consolidated financial statements should be read in conjunction with the annual financial statements for the year ended November 30, 2016, which have been prepared in accordance with IFRS as issued by IASB. The accounting policies adopted are consistent with those of the previous financial year, except for recent accounting pronouncements as described in Note 3 below. The Board of Directors approved the interim condensed consolidated financial statements on October 27, 2017.

3. RECENT ACCOUNTING PRONOUNCEMENTS

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the IASB or International Financial Reporting Interpretations Committee (“IFRIC”). The following item has been issued and is effective for annual periods beginning on or after January 1, 2016:

- *IAS 1 Presentation of Financial Statements:* In December 2014, amendments to IAS 1 were issued to address perceived impediments to preparers exercising their judgement in presenting their financial statements. The amendments clarify the definition of materiality, the presentation of items on the statement of financial position and statement of profit or loss and other comprehensive income, and ordering of notes in the financial statements. The adoption of these amendments did not have an impact on the financial statements of the Company.

On May 3, 2016, the Company entered into an Exploration Alliance Agreement with GlobeTrotters Resources Group Inc. (“GlobeTrotters”) to generate and acquire new high potential mineral targets primarily in the state of Sonora, Mexico. The Company was granted an exclusive three-year license to use the data generated from GlobeTrotters’ analysis, filtering and initial target selection through the imagery and data files which GlobeTrotters acquired from the state of Sonora. The data from GlobTrotters has resulted in identification of various properties, such as La Caridad Este, La Pithaya, Aqua Zarca, Ofelia, and Suzanne.

Pursuant to the Exploration Alliance Agreement, the Company will hold all interest in properties acquired as part of the collaborative effort with GlobeTrotters entitled to a 2% NSR royalty on all properties in which San Marco acquires a 100% interest. For properties in which the Company acquires less than 100% interest, it will pay GlobeTrotters 20% of all future consideration received in respect of the property, reducing to 10% after the commencement of commercial production. As consideration for the acquisition of the license, the Company issued 1,000,000 common shares to GlobeTrotters on May 20, 2016, valued at \$90,000, which was recognized as property investigation costs within exploration and evaluation expenses.

During the period ended August 31, 2017, the Company completed the sale of its La Pinta 06 concession located in Zacatecas, Mexico to a subsidiary of Goldcorp Inc. for gross proceeds of US\$225,000 (CAD\$281,955) and a 1% net smelter return royalty on future production from the concession. As all previous costs incurred for the La Pinta 06 concession were recorded in the statement of comprehensive loss, the Company recorded a gain on the sale of mineral property for the gross proceeds received.
